

Automated Building and Energy Controls Limited

JOB DESCRIPTION

Project Manager

- Full Time
- 40 hours per week plus travel

Department	Region	Office
Projects	UK	Home Based

ABEC Background

- ABEC is an Energy and Building Management System Specialist carrying out new Installations & Projects, Maintenance and Energy Management Services.
- ABEC is a fast growing business with offices in Tewkesbury, London, Birmingham, Ireland and Wokingham, consisting of over 60 staff and a network of sub contractors and suppliers with a plan to grow considerably over the next few years.

The Role

The Project Manager will be responsible for managing BMS projects of varying sizes. ABEC operates the majority of its projects on a fixed price basis and generally completes works for Mechanical and Engineering companies, as well as end clients and consultancy businesses. The Project Manager is ultimately responsible for ensuring the projects are delivered on time, on budget and leaving a satisfied customer

Responsibilities

- 1) Be responsible for the commercial performance and overall direction, co-ordination, implementation, execution, control, and completion of ABEC projects in line with high standards, ABEC corporate aims and policies.
- 2) Take projects from a sales handover, interpret and understand quote and scope of works or specification and at look to improve as sold gross margin.
- 3) Be responsible for health and safety management on all managed projects.
- 4) Regularly monitor, review, and report on the progress of all projects, progress, delays, and resourcing amendments to the customer, Contracts Manager, Projects administrator and other staff where required.

- 5) Prepare sales valuations, sales variations and request customer orders or instruction before proceeding with works. Manage sales application process.
- 6) Create purchase requisitions for staff, suppliers, sub-contractors and approve purchase invoices for payment. Manage purchase application process.
- 7) Ensure standard documents are continually used and maintained. These include but are not restricted to programme of works, progress schedules, technical submittals, RFI's and risk / opportunity register. Utilise and interact with project engineers where required.
- 8) Provide projects co-ordinator with sufficient notice for all engineering and commissioning requirements
- 9) Ensure factory acceptance activities, commissioning activities, snagging, and training activities are planned and communicated with results being documented and issued in a timely manner using the correct documents and processes.
- 10) Ensure customer satisfaction is maintained.
- 11) To undertake any other duties as requested by senior staff within ABEC.
